Dr. Varun Baweja

Ophthalmology

DO, DNB, MIGS Training (UK)

Regd. No.: PMC-35061

DIAGNOSIS

1. Right-eye anterior uveitis with ocular surface dryness (illustrative)

Rx

1. **ELINAC OD** (EYEDROPS) - Nepafenac 0.3% w/v

Instil one eyedrop once daily in both eyes for 1 month from 11-Sep-2026 to 10-Oct-2026.

2. **COMFORTZ** (EYEDROPS) - Hydroxypropylmethylcellulose 0.3% + Glycerin 0.2% + Dextran 70 0.1%

Instil one eyedrop four times a day in both eyes for 1 month from 11-Sep-2026 to 10-Oct-2026.

3. **VIGILONG** (ORAL MEDICINE) - Lutein

Take one dose once daily after breakfast for 1 month from 11-Sep-2026 to 10-Oct-2026.

4. **VIGOPRED** (EYEDROPS) - Prednisolone Acetate 1%

Shake well and instil one eyedrop every hour while awake in both eyes for 1 month from 11-Sep-2026 to 10-Oct-2026.

INSTRUCTIONS

Keep a 5-minute gap between eyedrops. Do not touch the bottle tip to the eye. Return earlier for pain, redness, or reduced vision.

PROCEDURE / SURGERY ADVISED

Optical biometry and cataract surgery counselling for the right eye (illustrative).

Follow-up: 18-Sep-2026
